

## **Meet Linda Harvey, RDH, MS, Licensed Healthcare Risk Manager**

**Linda Harvey** teaches dentists and physicians how to protect their million-dollar practices through effective risk management and patient safety.

- ◆ She holds licensure in both healthcare risk management and dental hygiene. She combines these unique credentials to show doctors and their staffs how they can significantly reduce risk and legal liability
- ◆ Linda complements practice management consultants whose clients need a specialist in risk management

### **Professional Experience**

Linda brings more than thirty years experience, providing the quality/safety perspectives of both healthcare professionals and state licensing boards.

- ◆ Clients receive quality assessments and risk analysis and specialized training, identifying hidden liabilities and potential risks
- ◆ Membership in organizations such as the American Society for Healthcare Risk Management and Organization for Safety and Asepsis Procedures gives Linda a leading edge

### **Authorship and Training Products**

Linda is a featured writer in trade journals, publications, and newsletters such as *Contact*, *RDH* and *Resource Connections*. Her training products have been featured in *Medical Economics*, *RDH*, and *Dental Materials and Equipment*.

- ◆ As an active member of National Speakers Association, she presents content-rich courses sprinkled with real-life stories of medical errors and many practical, easy-to-implement solutions
- ◆ She authored *Helping Hands for Dental Hygienists: 101 Timeless Treasures for a Successful Career* and four risk management and patient safety professional development courses
- ◆ Clients internationally utilize her risk prevention training systems, so they can focus on what they do best—providing exceptional patient care and services
